Several stories told to acct. for the name:  
Early surveyors considered name. They came  
from Miss. Several Spaniards in the group.  
One suggested they name it for his hometown.  
This is a repeated pop. acct., the only ex-

cated. This allegedly occurred c. 1820. It  
was not named for the city in Ohio. It was  
at the jct. of 2 thru roads; stage lines e-w  
and n-s crossed here. A Mr. Baker donated the  
site of Cadiz c. 1820. Canton was another  
contender for the co. seat; it was the only  
other settlement in the co. then. Two elec-

CADIZ (Trigg Co.): On 5/15/1820, the Comm'n recommended this site on land owned by Robt. Baker on Little R. among others being considered as seat of new county. Baker deeded 52 acres of his land to the county. (Pp. 92-3). On the 10/17/1820 term of the co. ct., it was determined that the town would be called Cadiz in 52 acres laid off that year too. CANTON (Trigg Co.): The town site was surveyed and patented by John N. Reed, in 1796, as part of 1333 acres. DK if he ever lived there 1st record of residence is 1799 when NC-reared Abram (sic) Boyd & party arr. from Nashv. With him was his father-in-law, Adam Linn & others, incl. the Futrells, Lindsays. They landed at the present site of Canton. Ignorant of Reed's ownership but deciding this "was a good place to located," Boyd built a home and the others also built nearby and a settlement was est. Boyd built a horse mill and a cotton gin and a warehouse. When he learned of the ownership, in 1804, Boyd paid Reed

\$3500. Boyd est. a landing on the Cumb. R. and a road from Hopkinsville to it. Acc. to records, these business places at B.L. were in existence at least by 1809, maybe earlier. The town of Canton, as such, wasnt est and inc. until 1823....Boyd died 1839...He was Xian Co. and Trigg Co. judge and a st. leg. In the early steamboat days, Canton was the term. of shipping from N.O. It was the key shipping pt. for all of Ky. w. of Russellville. Meat packing and tob. warehouses there...("Passing of Canton Ferry" by A.C. Burnett, ms, in KHS Libr., Trigg Co Vert. Files, examined by me, 8/1978);

CANTON (Trigg Co.): The site was 1st settled 1799 by Abraham Boyd, a N.C. native and for its 1st few yrs. was called Boyd's Landing, an import. shipping pt. Strategic location attracted early settlement. Store begun 1809-10 by Jas. Warren. Boyd laid out the town in 1823 and officially named it Canton. Grew as a shipping pt. till the rr came to nearby Hop. and took the river trade from Canton.. Thriving comm. right after the CW with 5 hotel 3 schools, large mill, newsp., and 3 warehouse Abraham Boyd was father of Linn Boyd (for whom Boyd Co. was named...) Site of famed Brick Inn hotel for river travelers built by Abraham Boyd c.1819 and still standing (c.1970).

but resident of Tenn. A legislator, the pre-  
siding justice of the County Ct. when the cc  
was organized. Father of Linn Boyd. (Ibid.  
P. 108); Boyd Landing was a prominent ship-  
ping pt. in the early years of Cumb. R.  
shipping. More freight rec'd. and tobacco  
shipped from here than from any other pt. on  
the Cumb. R. except Clarksville, from  
Burkesville to the Ohio R. In 1809, store

opened by Jas. Warren. Village laid out in 1823 and on motion of Abraham Boyd, proprietor, it was to be called Canton.... (Ibid., P. 113)....)

settlement than Cadiz. Another contender for  
the co. seat. Two elections held in a 10 yr.

CANTON (Trigg Co.): Locally pron. "K(eh)n ↔ K(ae)n/t n". These two pron. are used interchangeably. Boyds Landing (pron. "Boydz L(ae)nd/(ih)ŋ") Named for Abraham Boyd, Linn. father, who opened a tavern there. Turner thinks the Canton name was derived from the influence of the China trade in the clipper ship era of the 1830-40s because of its location on the river and the influence of travelers coming up the river. Definitely not named for the city in Ohio. (Wm. Turner, interview, 8/7/77);

CERULEAN SPRINGS (village) (Trigg Co.):

A never failing spring of mineral content which, from its discovery attracted considerable scientific attention. Contains sulphate & chloride of magnesia....Richard Stow=one of the 1st owners. By him it was transferred to Kinchan Killabrew and then to Jos. Caldwell. Killabrew built cabins there c.1819 for visitors. It became a "watering place" in 1834-5 with development by Henry Crow. In

This included the Empire Furnace and commu.

had been purchased by Watson in 1843 from  
Mason Foley for \$50. The Stackers ran the  
Mammoth Furn. in LBR and it may have been  
called Degraffenreid Furn. and "predated"  
the others. In 1853, Hillman deeded 1000

acres to John Stacker.....Wm. Kelly built  
the Suwanee Furn. on his land. Kelly came
